PART I: Instruction to Bidders (ITB)

1.1 Introduction

Standard Insurance Company S.C (herein after referred to as the "Purchaser") intends to acquire & implement Digital Insurance Platform for which technical specification of the required system & associated services is given here in the documents under ***Technical Specifications Part***.

1.1.1 Definition

For the purpose of these bidding documents, Digital Insurance platform means an integrated application software/package that is complaint with international principles. This system must encompass all non-life insurance and life insurance with different modules.

1.1.2 Eligible Bidders

This invitation for bids is open to all eligible local and/or international competitive bidders who fulfill the criteria mentioned under clause 1.3.3.2 a & clause 1.3.6 herein below.

1.1.3 Cost of Bidding

The bidders shall cover all costs associated with the preparation & submission of their bid including bidders' conference, software demonstration, live test demonstration and all accommodation and transport costs required for experts of the bidder. The Purchaser will in no case be responsible or liable for any costs, regardless of the outcome of the bidding process.

1.2 The Bidding Documents

1.2.1 Content of bidding documents

1.2.1.1. The software required, bidding procedures and contract terms are prescribed in the bidding documents. The bidding documents include:

- a) Instructions to Bidders (ITB);
- b) Technical Specifications (Terms of Reference - ToR);
- c) Bidding Data Sheets and forms;

1.2.1.2 Bidders are expected to examine carefully all instructions, conditions, forms, terms and specification in the bidding document. Failure to furnish all information required or submission of a bid not substantially responsive to the requirements of the bidding documents will be at the bidder's risk and may result in the rejection of its bid. For the purpose of these clauses, a substantially responsive bid is one that conforms to all term and conditions set in all of the bidding Documents without material fact deviations.

1.2.2 Clarification of bidding documents

1.2.2.1. A prospective bidder requiring any clarification of the bidding Documents may notify the purchaser in writing at the purchaser's address indicated under clause 1.2.2.3. All inquiries should come to the purchaser as per stated date in this RFP. No telephone inquiries will be accepted or considered.

1.2.2.2 Prospective bidders or their authorized dealers should refer to the specific page, clause & paragraph of the bid document being questioned.

1.2.2.3 Prospective bidders shall send their request for clarification only to the following correspondent contacts:

Standard Insurance S.C. Head Office

E-mail: bid@standardinsurancesc.com

1.2.2.4 The purchaser may hold a bidders' conference within its vicinity so as to give bidders a clearer understanding of the request for proposal. The location & time

of the bidders' conference will be communicated to all prospective bidders who have purchased the bid document.

1.2.3 Amendment of Bidding Documents

1.2.3.1 At any time prior to the deadline of the submission of bids, the Purchaser may, for any reason, whether due to own initiative or in response to a clarification requested by a prospective bidder, modify the bidding documents by amendment.

1.2.3.2 The amendment will be sent in writing or by mail to all prospective bidders who have purchased the bidding documents. Prospective bidders shall promptly acknowledge receipt of each amendment in writing or by mail, and will be bidding on them.

1.2.3.3 In order to allow prospective bidders reasonable time in which to take the amendment into account in preparing their bids, the Purchaser may, at its discretion, extend the deadline for the submission of bids.

1.3 Preparation of Bids

1.3.1 Language of bids

The bid prepared by the bidder as well as all correspondence and documents relating to the bid shall be written in English language. Any supporting documents and printed literature written in another language shall be accompanied by an English translation. For the purpose of interpretation, the English translation shall govern/prevail.

1.3.2 Documents Comprising the Bid

The bid submitted by the bidder shall comprise the following components:

- a) A bid form and a price schedule completed in accordance with clauses 1.3.3, 1.3.4 & 1.3.5.
- b) Documentary evidence established in accordance with instruction to Bidders clause 1.3.6 that the bidder is eligible to bid and is qualified to perform the contract projects if the bid is accepted & has adequate experience in implementing similar

insurance application;

- c) Completed form and documentary evidence supporting the technical data sheet;
- d) Documentary evidence established in accordance with clause 1.3.7 that the integrated insurtech to be supplied and implemented by the bidders confirm to the technical specification specified herein below under ***Technical Specifications Part***; and
- e) Bid security furnished in accordance with clause 1.3.8.

1.3.3 Bid Form

1.3.3.1. The bidder shall complete the bid form and price schedule furnished in the bidding documents, indicating the systems to be supplied, a brief description of the software, its country of origin which means the place where the system is developed or from which the ancillary services are supplied.

1.3.3.2 The bidder is required to prepare the proposal by segregating documents into three sealed envelopes:

- a) An envelope labeled with GENERAL PROPOSAL or PRELIMINARY DOCUMENT: This envelope shall contain documents that are important for bidders' proposal validation process purposes. These documents are:
 - Bid bond amount of 300,000.00 in ETB [Ethiopian Birr] or its equivalent in USD.
 - Transmittal letter which must be signed by a person in charge & who is authorized to represent the bidder. The transmittal letter shall contain the following points
 - Identify bidder
 - Identify the name & title of the person authorized by the bidder to oblige the bidder contractually.

- Identify the name, title, & telephone number of the person authorized to negotiate the contract on behalf of the bidder.
 - Identify the names, titles, & telephone numbers of persons to be contacted for clarification
 - Explicitly indicate acceptance of the requirements in this ITB
- Acknowledge receipt of any & all amendments in this ITB.
- Renewed current trade license (of a national bidder and local agent of foreign bidder).
- An authorized license or certificate that certifies the bidder to transact the subject matter of the bid from the country of origin.
- Evidence which shows number of years in business, and number and name of insurance companies in which the proposed application software is implemented, in country of origin and other countries.
- Patent certificate or license agreement for the use of the application software which shows the company is the owner of the application.
- Partnership agreement with local agent, VAT certificate TIN certificate, and license.
- The last three consecutive years audited financial statements of the bidder.
- Experience of the company in Africa, in Sub Saharan African countries in particular, if any and letter of experience in country or origin.
- Knowledge of Ethiopian insurance market and products, if any.

- Testimonial documents of the main bidder.

b) An envelope labeled with TECHNICAL PROPOSAL: this envelop should contain a clear & detail technical proposal. It shall address all the technical specification & the requirements of the purchaser. Among other things, it shall describe the following issues.

- Company profile (details of required information is shown under ***Bid Evaluation Criteria Part***)
- Features of the product as outlined in the technical specifications
- Fulfillment of the requirements as stated in the bid documents.
- Detailed customization and implementation (project management) plan, including the list & curriculum vitae of the personnel with detailed testimonials for each of them to be deployed for the implementation. A minimum composition of 10 years for project manager, 7 years for both functional and technical consultants. Bidders can propose any additional personnel requirements as per proposed project management plan.
- Training Modality, methodology, manuals, and Numbers of trainees for who the training shall be conducted.
- A minimum of one-year warranty, modality of warranty – onsite/offsite, list of warranty related services to be provided
- Annual maintenance and system support scheme.
- Deployment modality of the solution such as Cloud and/or On-premise.
- Technical proposal should be submitted both TECHNICAL-ORIGINAL and TECHNICAL-COPY which should be sealed independently.
- Project management methodology – project planning, Configuration and

customization Approach, Business blueprint/gap analysis, change management approach, testing approach and issue escalation mechanism.

- c) An envelope labeled with FINANCIAL PROPOSAL (details of required information is shown under ***Bidding Data Sheet & Forms Part***)
- d) The FINNACIAL PROPOSAL should be submitted in two copies which should be in separated envelope.
- e) As part of preliminary evaluation, the bidders' proposal shall be checked if the documents are to be submitted in the following manner:
 - GENERAL ORIGINAL and COPY sealed separately
 - TECHNICAL ORIGINAL and COPY sealed separately
 - FINANCIAL ORIGINAL and COPY PROPOSAL sealed separately.

1.3.4 Bid Prices

The bidder shall indicate on the appropriate price schedule the unit prices and total bid prices of the application software and services in Ethiopian Birr [ETB] it proposes to supply under the contract. Prices indicated on the price schedule shall exclude all taxes payable.

The price for each Digital Insurance module should be indicated separately. In addition,

- a) The price of the implementation including the study, customization, installation, training, etc. must be indicated separately for each of the above-mentioned modules.
- b) The Annual maintenance and technical support fee must also be indicated separately for each module.
- c) Any third-party product (like Operating System, DBMS, API and Development Tools) that is required to implement the proposed application systems has to be defined along with the product's price.

- d) If no price is quoted for any of the modules and services, it will be assumed that there is no additional cost to be incurred.
- e) The price should be submitted in two ways:
- The first one is as we purchase the solution and hosted in the deployment environment in our selected premise or cloud to be provided by the client which shall be made ready and including annual maintenance and support fees.
 - The second option is as per revenue based as the bidder shall allow install, configure, customize and deploy the system in their respective cloud platform so that standard insurance users can access and use it remotely. If the cost for access is per user, the bidder should specify it and commission rate in percentage and any associated costs with such proposition.

The bidder shall propose as to the method of payment. In case advance payment is required, the bidder shall present advance payment guarantee bond. Where advance payment guarantee bond is not presented, no payment will be made unless the Digital insurance system is delivered & fully implemented except to cover expenses incurred during implementation.

Prices quoted by the bidder shall be fixed & shall be determined on the basis of software & services to be delivered & tasks to be completed and shall not be subjected to variation on any account like the extra man-hour spent on the implementation. All accommodation & transport costs of experts to be deployed shall be determined in advance & shall be included in the implementation fee. A bid submitted with and adjustable price quotation will be treated as non-responsive and will be rejected pursuant to INSTRUCTION TO BIDDERS clause 1.5.3.

1.3.5 Bid currencies

The bidder shall quote the price of Digital insurance software & services to be supplied in widely used in international trade which is in Ethiopian Birr or equivalent amount in USD where

applicable. The Purchaser will convert all bid prices expressed in various foreign currencies to Birr at the selling exchange rate that prevailed on the bid opening date and established for similar transactions by the National Bank of Ethiopia.

1.3.6 Documentation establishing bidder's eligibility and Qualifications

Pursuant to clause 1.3.8, the bidder shall furnish, as part of its bid, documents establishing the bidder's eligibility to bid and its qualification to perform the contract if the bid is accepted.

The documentary evidence of the bidder's qualifications to perform the contract if its bid is accepted shall establish to the purchaser's satisfaction.

- a) that, in the case of a bidder offering to supply software under the contract which the bidder did not develop, the bidder has been duly authorized by the owner to supply, implement, customize, configure and commissioning of the integrated Digital insurance application software in the purchaser's country;
- b) that the bidder has the financial, technical and production capability necessary to perform the contract;
- c) that, in the case of bidder not doing business within the purchaser's country, the bidder is or will be (if awarded the contract) represented by an agent in Ethiopia equipped, and able to carry out and fulfill the bidder's obligation in providing the required support, maintenance and training, if need be, and;
- d) The bidder must be a legal entity registered in its respective country and having registered office and operations.
- e) The bidder should have been operational for at least the last five consecutive years.
- f) The bidder should be willing to be visited by a team designated by standard insurance if required.
- g) The company or the bidder should not have been barred or black listed by any government, organizations or public sector as the case may be, from participating in any project and the bar subsists as on the date of the proposal, would not be eligible

to submit a proposal either by itself or through its partner.

- h) The bidder or its partner should have, during the last five years, neither failed to perform on any agreement nor been expelled from any project or agreement nor have had any agreement terminated for breach by such bidder or its partner.
- i) The company should have a valid and renewed trade license in the country of origin.
- j) The company should have local partner in Ethiopia whose firm's legal documents (Renewed Trade license, VAT Certificate, TIN certificate) should be submitted together with primary vendor and partnership agreement between them. The official Partnership agreement should be presented as part of pre-qualification documents.
- k) Only bids for which bid security has been submitted are considered eligible.
- l) That the bidder meets the qualification criteria listed in the Bid Data sheet.

The bidder shall confirm that it either is the owner of the intellectual Property Rights for the software items offered, or that it has proper authorization and/or license from the owner to offer them. Misrepresentation of these facts will lead to the cancellation of the contract without prejudice to other remedies that the Purchaser may take.

1.3.7 Documents establishing application software's eligibility and conformity to bidding documents

Pursuant to clause 1.3.2, the bidder shall furnish, as part of its bid, documents establishing the eligibility and conformity to the bidding documents of the application software, which the bidder proposes to supply under the contract.

The documentary evidence of the integrated Digital insurance application system or conformity to the bidding documents may be in the form of literature.

- a) A detailed description of the software's essential functional, non-functional and performance characteristics.
- b) A list giving full particulars, including available sources and current prices of each module, special tools etc., necessary for the proper and continuing functioning of the

integrated Digital insurance application system for a period of life span following commencement of the integrated Digital insurance application system software use by the Purchaser.

- c) A written confirmation that the software to be supplied will fulfill the technical specification & shall satisfy the purchaser's requirement as provided under Technical Specifications Part herein below.
- d) Item-by-Item commentary on the purchaser's Technical Specifications demonstrating substantial responsiveness of the integrated Digital insurance application system and services to those specifications or a statement of deviations and exception to the provisions of the Technical Specifications.
- e) bidders shall submit the last three years' consecutive years audited financial statement together with their bid proposal.

1.3.8 Bid bond

1.3.8.1 Pursuant to clause 1.3.2, the bidder shall furnish, as part of its bid, a bid bond in the amount of **300,000.00 in ETB** or its equivalent in foreign currency from a recognized domestic financial institution.

1.3.8.2 The bid bond is required to protect the Purchaser against the risk of bidder's conduct which would warrant the security's forfeiture pursuant to paragraph 1.3.8.4.7 and punishment if the bidder is not willing to sign the contract.

1.3.8.3 The bid bond shall be denominated in Birr and/or in the currency of the bid, and shall be in one of the following forms:

- a) An unconditional bank guarantee or irrevocable letter of credit issued by any financial institution recognized by the purchaser, in the form provided in the bidding documents or another form acceptable by the purchaser.
- b) A cashier's payment order
- c) Cash

1.3.8.4 Any bid not secured in accordance with paragraphs 1.3.8.1 and 1.3.8.3 shall be

rejected by the Purchaser as non-responsive pursuant to clause 1.5.3,

1.3.8.5 Unsuccessful bidders' bid bonds will be discharged/returned as promptly as possible, but not later than **30 days** after the expiration of the period of bid validity prescribed by the Purchaser, pursuant to (INSTRUCTION TO BIDDERS) clause 1.3.9.

1.3.8.6 The successful bidder's bid bond will be discharged upon the bidder signing the Contract, pursuant to clause 1.6.6 and furnishing the required performance bond, pursuant to (INSTRUCTION TO BIDDERS) clause 1.6.7.

1.3.8.7 The bond may be forfeited: -

- a) If a bidder withdraws its bid during the period of the bid validity pursuant to clause 1.3.9; or
- b) If a bidder does not accept the correction of its bid price, pursuant to clause 1.5.3.5; or .
- c) In the case of the successful bidder, if the bidder fails:
 - To conclude the Contract in accordance with ITB clause 1.6.6, and/or
 - To furnish the required performance bond in accordance with ITB clause 1.6.7.

1.3.9 Period of Validity of bids

1.3.9.1 Bids shall remain valid for a period of **180 calendar days** after the bid opening date prescribed by the Purchaser, pursuant to clause 1.4.2: A bid valid for a shorter period may be *rejected* by the purchaser as non-responsive.

1.3.9.2 In exceptional circumstances, prior to expiry of the original bid validity period, the Purchaser may solicit the bidder's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing. A bidder may refuse the request without forfeiting its bid bond. A bidder granting the request will not be required nor permitted to modify its bid, but will be required to extend the validity of its bid bond correspondingly. The provisions of clause

1.3.8 regarding discharge and forfeiture of bid bond shall continue to apply during the extended period of bid validity.

1.3.10 Format and signing of bid

1.3.10.1 The bidder shall prepare one original and one copy documents, clearly marked "ORIGINAL" and "COPY" for GENERAL, TECHNICAL and FINANCIAL PROPOSALS. In the event of any discrepancy between them the original shall govern.

1.3.10.2 The original and the copies of the bid shall be typed or written in indelible ink and shall be signed by the bidder or a person duly authorized. Authorization shall be indicated by a written power of attorney accompanying the bid. All pages of the bid, except for un-amended printed literature, shall be initialed by the bidder or persons signing the bid.

1.3.10.3 In addition to the paper-based submission, an electronic submission of the GENERAL and TECHNICAL PROPOSALS in PDF format is required. The electronic submission should preferably be on a CD-ROM and must be identical to the paper-based bid. All technical proposal and eligibility documents should be copied to the CD-ROM.

1.3.10.4 Any interlineations, erasures or overwriting shall be valid only if they are initialed by the person signing the bid.

1.4 Submission of Bids

1.4.1 Sealing and marking of bids

1.4.1.1 The bidders shall seal the original and copy of the bid in separate envelopes duly marking the envelopes as "ORIGINAL" and "COPY". The envelopes shall then be sealed in an outer envelope. The original & copy of the GENERAL PROPOSAL, the original & copy of TECHNICAL PROPOSAL and the original & copy of FINANCIAL PROPOSAL shall be placed in three envelopes clearly marked with GENERAL PROPOSAL, TECHNICAL PROPOSAL &

FINANCIAL PROPOSAL respectively with a remark "OPEN SEPARATELY".

If there are any additional materials that bidder wants to add, it should be included inside one of these three envelopes whichever are appropriate. Brochures, fliers or any other promotional materials are not important for selection processes and bidders are required not to include them.

1.4.1.2 The inner and outer envelopes shall:

- a) be addressed to the purchaser at the following address

Human Capital and Property Management Department

Standard Insurance Company S.C.,

ADDRESS

Tel: +251-0964182218

E-mail: bid@standardinsurancesc.com

- b) Bear the "INTEGRATED DIGITAL INSURANCE PLATFORM BID" and the words "Do not open before April 24,2026.

1.4.1.3 In addition, the inner envelope shall indicate the name and address of the bidder to enable the bid to be returned unopened in case it is declared "late" or taken as invalid.

1.4.1.4 If the outer envelope is not sealed and marked as required by paragraph 1.4.1.2, the Purchaser will assume no responsibility for the bid's misplacement or premature opening.

1.4.1.5 The bidders shall deposit the sealed envelope in the box or send it by registered mail.

1.4.1.6 The whole bid proposal documents as indicated under clause 1.4.1.1 shall be submitted sequentially arranged, sorted out properly with consecutive page numbering clearly understandable & traceable during evaluation process. Omission and/or misplacement of the required data or information shall entail rejection from evaluation.

1.4.2 Deadline for submission of bids

1.4.2.1 Bids must be received by the Purchaser at the address specified under paragraph

1.4.1.2 not later than bid closing date and time as specified in this document.

1.4.2.2 The Purchaser may, at its discretion, extend the deadline for the submission of bids by amending the bidding documents in accordance with instruction to Bidders clause 1.2.3, in which case all rights and obligations of the Purchaser and bidders previously subject to the original deadline will thereafter be subject to the deadline as extended, and the period of validity of bid date shall be adjusted accordingly.

1.4.3 Late bids

1.4.3.1 Any bid received by the Purchaser after the deadline for submission of bid prescribed by the Purchaser, pursuant to instruction to Bidders clause 1.4.2, shall be disregarded and/or returned unopened to the bidder.

1.4.4 Modification and withdrawal of bids

1.4.4.1 The bidder may modify or withdraw its bid before the bid's submission, provided that written notice of the modification or withdrawal is received by the Purchaser prior to the deadline prescribed for submission of bids.

1.4.4.2 The bidder's modification or withdrawal notice shall be prepared, sealed, marked and dispatched in accordance with provisions of clause 1.4.1. A withdrawal notice may also be sent in writing but must be followed by a signed confirmation copy, post marked not later than the deadline for submission of bids.

1.4.4.3 No bid may be modified after the deadline for submission of bids.

1.4.4.4 No bid may be withdrawn in the interval between the deadline for submission of bids and the expiration of the period of bid validity specified by the bidder on the Bid Form. Withdrawal of bid during this interval may result in the bidder's forfeiture of its bid bond pursuant to clause 1.3.8.

1.5 Opening and Evaluation of Bids

1.5.1 Opening of bids by Purchaser

- 1.5.1.1 The Purchaser will open bids, in the presence of bidders or their representatives who choose to attend on Bid opening date in Addis Ababa at Standard Insurance S.C., Head Office. The bidders or their representatives who are present shall sign a register/attendance evidencing their attendance. If they do not attend, the bidders assume the risk of not being present.
- 1.5.1.2 First, envelop marked with GENERAL PROPOSAL will be opened. The TECHNICAL PROPOSAL of bidders shall be opened only if they have met or passed the validation criteria or preliminary screening.
- 1.5.1.3 Secondly, the TECHNICAL PROPOSAL of bidders who met the validation criteria will be opened after the validation process is completed.
- 1.5.1.4 FINANCIAL PROPOSAL of those bidders who meet the basic technical requirement will be opened after the technical evaluation process is finalized by inviting bidders who qualify for the next evaluation.
- 1.5.1.5 The bidders or their representatives who are present shall sign a register evidencing their attendance.
- 1.5.1.6 The bidders' names, bid prices, modification, discounts, if any bid withdrawals and the presence or absence of requisite bid bond and such other details as the Purchaser, at its discretion, may consider appropriate will be announced at the opening.
- 1.5.1.7 The Purchaser will prepare minutes of the bid opening.

1.5.2 Clarification of bids

- 1.5.2.1 During evaluation of the bids, the Purchaser may, at its discretion, ask the bidder for a clarification of its bid. The request for clarification and the response shall be in writing and no change in the price or substance of the bid shall be sought, offered, or permitted.

1.5.3 Preliminary evaluation

- 1.5.3.1 The purchaser will examine the bids to determine whether they are complete, whether any computational errors have been made, whether the required securities have been furnished, whether the documents have been properly signed, and whether the bids are generally in order.
- 1.5.3.2 Prior to the detailed evaluation, pursuant to clause 1.5.5, the Purchaser will determine the substantial responsiveness of each bid to the bidding documents. Deviations from, or objections or reservations to critical provision, such as those concerning bid security applicable laws, taxes and duties will be deemed to be having material deviation. The Purchaser's determination of a bid's responsiveness is to be based on the contents of the bid itself, without recourse to extrinsic evidence.
- 1.5.3.3 If a bid is not substantially responsive, it will be rejected by the Purchaser and may not subsequently be made responsive by the bidder by correction of the non-conformity.
- 1.5.3.4 The Purchaser may waive any minor non-conformity or irregularity in a bid which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of any bidder.
- 1.5.3.5 Bids determined to be substantially responsive will be checked by the purchaser for any arithmetical errors in computation and summation. Arithmetical errors will be rectified as follows:
- If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and the quantity, the unit price shall prevail and the total price shall be corrected. If there is a discrepancy between the amount in words and in figures, the amount in words shall prevail. If the bidder does not accept the correction of the errors, its bid will be rejected and the bid bond be forfeited.
- 1.5.3.6 To facilitate evaluation and comparison, the Purchaser will convert all bid prices expressed in the amounts in various foreign currencies in which the bid prices are payable to the Purchaser in Birr at the selling exchange rate that prevailed on the

bid opening date and established for similar transactions by the National Bank of Ethiopia.

1.5.4 Presentation, Demonstrations & Site Visits

- 1.5.4.1 Bidders who are on the shortlist will be required to give an oral and onsite presentation in our Head office of their proposal to the Purchaser.
- 1.5.4.2 The Purchaser may require a software demonstration from shortlisted bidders. The demonstration must use the same software being proposed and must showcase sufficient functionality to simulate the basic proposed functions. Bidders will be provided with advance notice of the demonstration date and are responsible for providing their own demonstration equipment.
- 1.5.4.3 The Purchaser shall give the direction and needs of the demos' contents.
- 1.5.4.4 The Purchaser has the full right to shortlist the qualified bidders for presentation.
- 1.5.4.5 The purchaser may also conduct a site visit (live test demonstration) where the bidders' system is installed in which the work is similar in size, application, and scope to the project described herein.

1.5.5 Evaluation and comparison of bids

- 1.5.5.1 The Purchaser will evaluate and compare bids previously determined to be substantially responsive pursuant to clause 1.5.3.
- 1.5.5.2 The Purchaser's evaluation of a bid will exclude and not take into account any allowance for price adjustment during the period of execution of the contract, if provided in the bid.
- 1.5.5.3 The Purchaser is interested in obtaining a complete solution to the requirements contained, in this ITB. Proposals that meet the instructions and requirements will be given a thorough & objective review. However, proposals that are late, do not comply with proposal instructions, or take exceptions to mandatory requirements will be eliminated without further considerations.
- 1.5.5.4 The Purchaser's evaluation of a bid will take into account a number of factors in

addition to the bid price (for the detail see ***Bid Evaluation Plan Part***). These include: -

1.5.5.4.1 Technical solution

Primary consideration will be given to meeting the mandatory functional requirements as listed in the technical specifications. Proposals will be evaluated according to the following criteria.

- a) Fulfillment of the requirements as stated in these technical specifications,
- b) Understanding of the work to be performed,
- c) Technical approach, project plan & methodology to accomplish the work,
- d) Completeness & competence in addressing the scope of the work,
- e) Technical and functional training
- f) Staff credentials and qualifications
- g) Experiences and testimonials

1.5.5.4.2 Project management

The Purchaser emphasizes the need for successful project implementation. As a result, vendors will be evaluated on the completeness & responsiveness of their project management plans & the expertise of the project team to be assigned.

Bidders with adequate experience in implementing similar projects will be preferred. The purchaser's confidence in the bidder's ability to meet deadlines & successfully manage similar projects will be a primary consideration.

Special consideration will be given to bidders who propose a detailed project plan with sufficient breakdown of tasks & steps to demonstrate a complete understanding of the project.

1.5.5.4.3 Pricing

The Purchaser will consider pricing as part of the evaluation criteria. It is not essential to bid the lowest price to win; however, large pricing differentials among bidders will be carefully examined. Price will be used as a final indicator for determining the winner when all other criteria have been normalized.

The Purchaser needs fixed implementation fee. Variable implementation fee which depends on the period of implementation is not acceptable.

1.5.5.4.4 Reference & demonstrations:

Bidder references, software demonstrations and site visits or the live test demonstrations (as appropriate), will be evaluation factors. Bidders may not refuse to participate in any one of the methods discussed above.

1.5.5.5 The Purchaser will evaluate bids on the basis of the merit point system. For the purposes of this contract, the relative attributes of the bid will be evaluated in the following range of ratios.

- Technical evaluation 70%
- Financial evaluation 30%

1.5.5.6 The evaluation of each bid by the Purchaser will be carried out as follows:

- a. The Purchaser will establish that all essential technical and non-technical specifications (as detailed in the **Technical Specifications Part**) have been fully met by the bid, and establish the number of points to allocate to each item;
- b. The Purchaser will determine which of the technical and non-technical specifications have been met, and establish the number of points to allocate to each bid as per the evaluation points indicated in the **Bid Evaluation Plan Part**; and
- c. The Purchaser will calculate the points to allocate each bid for the comparison and evaluation of prices. Each bid will be allocated points pro-rata against the lowest price bid.

1.5.5.7 The bid scoring the highest total number of points will be deemed to be the most advantageous and will be awarded the contract, subject to clause 1.6.2.

1.5.6 Contacting the Purchaser

1.5.6.1 After public opening of bids, information relating to the examination, clarification, evaluation and comparison of bids, and recommendations for the award of a contract shall not be disclosed to bidders or any other persons not officially concerned with such process until the award to the successful bidder has been announced.

1.5.6.2 Any effort by the bidder to influence the Purchaser's bid evaluation, bid comparison or contract award may result in the rejection of the bidder's bid.

1.6 Award of Contract

1.6.1 Purchaser's Right to Accept Any Bid, and to Reject Any or All Bids

1.6.1.1 The Purchaser reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to contract award, without thereby incurring any liability to Bidders.

1.6.2 Award criteria

1.6.2.1 The Purchaser will award the contract to the successful bidder whose bid has been determined to be substantially responsive, has met all the essential specifications and has been determined as the highest marked bid, provided further that the bidder is determined to be qualified to satisfactorily perform the contract.

1.6.3 Primary Bidder

1.6.3.1 The Purchaser will not accept any proposals that reflect an equal teaming arrangement or from bidders who is co-bidding on this ITB. The prime bidder will be responsible for the management of all subcontractors. The purchaser will not accept any invoices from subcontractors or become part of any negotiations between a prime bidder & a subcontractor.

1.6.3.2 Prospective bidders shall not bid for the same integrated Digital insurance

application system under different capacity, like agent & principal.

1.6.4 Complete solutions

1.6.4.1 The purchaser will accept only complete solutions from a prime bidder. Bidders may not bid on only one item or selected items from the ITB.

1.6.5 Notification of award & post award briefing

1.6.5.1 Prior to the expiration of the bid validity period, the Purchaser will notify the successful bidder in writing by registered letter or by cable to be confirmed in writing by registered letter, that its bid has been accepted.

1.6.5.2 The notification of award will constitute the formation of the contract.

1.6.5.3 Upon the successful bidder's furnishing of a performance bond pursuant to clause 1.6.7, and its signing of the contract pursuant to clause 1.6.6 the Purchaser will promptly notify each unsuccessful bidder and will discharge their bid bond, pursuant to clause 1.3.8.

1.6.5.4 The Purchaser will debrief bidders who were disqualified or did not win the contract upon request. This request for debriefing will be accommodated only after the final contract has been awarded. Bidders may either make appointments for a conference at the purchaser's office or be debriefed via appropriate channels the Purchaser select.

1.6.6 Signing of contract

1.6.6.1 At the same time as the Purchaser notifies the successful bidder that its bid has been accepted, the Purchaser will send the bidder the contract form provided in the bidding documents, incorporating all agreements between the parties.

1.6.6.2 Within 15 days of receipt of the contract form, the successful bidder shall sign and return the contract to the Purchaser.

1.6.7 Performance Security

1.6.7.1 Within 15 days of the receipt of the notification of award from the Purchaser, the

successful bidder shall furnish the performance bond in accordance with the Conditions of Contract, in the performance bond form provided in the Bidding Document or another form acceptable to the Purchaser. The performance bond shall be sent to the purchaser in advance of signing the contract and shall have effect on the date the contract is signed.

1.6.7.2 Failure of the successful bidder to comply with the requirement of clause 1.6.6 shall constitute sufficient ground for the annulment of the award and forfeiture of the bid bond, in which event the Purchaser may award the contract to the next lowest evaluated bidder or call for new bids.

1.6.8 Confidentiality

1.6.8.1 Prospective bidders shall sign a non-disclosure agreement so as not to disclose any information to any person not directly involved in the proposal and not to disclose this ITB to any other bidder or company without prior permission from the Purchaser.

1.6.8.2 Prospective bidders may not refer or pass on this ITB to another bidder without prior approval from the Purchaser.

1.6.8.3 Bidders may not release any information about this ITB. The winning bidder shall not issue a press release until it has been reviewed and approved by the Purchaser.

1.6.8.4 The Purchaser has no obligation to share the proposal material with any other party and will respect any documents or materials that bidders have clearly marked "confidential property". However, only those pages that contain the proprietary information should be so designated, not the entire proposal. The Purchaser is not obliged to maintain the confidentiality of any information that was known prior to receipt of a proposal, or becomes publicly known through no fault of the purchaser, or is received without obligation of confidentiality from a third party.

PART III: Terms of Reference (TOR)

3.1 Introduction

Standard Insurance Share Company is a Private Insurance Company engaged in the business of rendering General and Life Insurance services.

Standard Insurance Share Company (SISCo) is licensed to transact non-life insurance products and currently is working to acquire General, life insurance and Takaful licenses also. Presently, it is providing a full range of non-life products to the public. These include motor, fire, marine, engineering, pecuniary and liability insurance products. While there are a number of standard insurance policies under each type, each may also be tailored or combined to meet customer's specific demands and risk exposures.

1.1.1. Mission

"To deliver innovative, reliable, and customer-centered insurance services those protect our customers through the state-of-the-art technology and with competent staff thereby to maximize the interest of shareholders".

1.1.2. VISION:

"To become the most trusted insurance company".

VALUES

- ✓ Service Excellence
- ✓ Teamwork
- ✓ Accountability
- ✓ Novelty
- ✓ Discipline
- ✓ Adaptability
- ✓ Reputation
- ✓ Diversity and Inclusion

1.1.3.MOTO:

"Your trust our standard" እምነታችሁ ጥራታችን

3.2 Project Objective

3.2.1 Objective

This System Requirements Specification (SRS/FRS) defines the functional and nonfunctional requirements for Standard Insurance S.C.'s digital insurance platform. The document is intended to guide the development, deployment and operation of a cloud based Insurance Platform. The SRS/FRS covers customer and agent applications, back office operations and Digital platform features.

3.2.2 Scope of the Solution

The digital insurance platform will modernize standard insurance's operations by providing a customer mobile app, an agent /broker mobile app, a back-office administration portal. These components will support multiple lines of products in Life and General Insurance through unified underwriting, policy administration, claims management, reporting and analytics. The system will integrate with existing systems if possible to integrate with Peachtree as well for payment process and external services (national ID, payment gateways) via secure APIs. It will serve Standard Insurance's customers, underwriters, claims, and social media integration as well.

3.2.3. The Scope of Implementation Work for the Project

The scope of digital insurance implementation work will include the following:

- Configure/customize the digital insurance as per requirements of the Purchaser.
- Integration of the digital insurance with third party systems.
- Provide implementation and project management services.
- Sizing the hardware for digital insurance solution and installing the digital insurance solution.
- Perform functional and non-functional testing of the system jointly with the purchaser
- Train users and facilitate the adoption of the digital insurance solution by users/employees of the purchaser.
- Providing application and database support after completing the implementation of the digital insurance Solution.

3.3 Current Environment

3.3.1 Existing IT Application

At purchaser, the following software applications are currently being used:

1. Third-party, Marine single window, and COMESA Yellow Card governmental systems are being used to streamline the process of Motor third-party, marine, and yellow card operations.
2. Microsoft office (MS word and excel) is being used for general purpose processing needs.
3. Peachtree application is used for managing payment related transactions.

3.3.2 The Users Base

The proposed digital insurance solution and implementation services are expected to cover the organization's user base and address the processes or operations carried out by customers and partners which shall access the platform via mobile app and portal. The number of user base should be unlimited for insuretech solution proposed.

3.3.3 Brief Description of Major Operations

3.3.3.1 Product Perspective

Standard Insurance seeks to modernize its insurance operations by adopting digital insurance platform. The system will be branded with Standard Insurance's identity. It will provide digital channels for customer self-service, agent-assisted onboarding and back-office workflows. The platform shall enable seamless integration with digital systems and third-party services such as payment gateways and national ID verification.

3.3.3.2 Product functions

At a high level the platform shall provide the following functions:

1. **Customer Engagement:** A mobile app (Android and iOS) allowing prospects and policyholders to browse products, obtain quotes, submit applications, complete digital onboarding, make payments, manage policies, file claims and receive notifications.
2. **Mini apps:** Aside from Android and iOS, the system shall have mini apps to be integrated to superapps to easily reach millions of users.

3. **Agent/Sales Force Support:** An Android app enabling agents to assist customers with onboarding, collect KYC documents, submit applications, receive underwriting decisions, and collect premiums via multiple payment methods.
4. **Back-Office Administration:** A web-based portal for underwriters, claims officers and managers to manage users and agents, review underwriting and claims, monitor operational metrics and generate reports.
5. **Core Engine:** That supports multiple insurance product configurations, rating algorithms, policy administration and integration via secure APIs.
6. **Analytics and Reporting:** Real-time dashboards and reports to monitor new applications, premium collected, claim cycle times, payments and agent performance.
7. **Integration Services:** Secure API gateway enabling data exchange with national ID systems (Fayda), payment gateways and other third parties. In addition, the system shall integrate with AI to provide faster service to customers, OCR and vehicle intelligence.
8. **Premium Financing:** Integration with lending platform to provide premium financing to all products.

3.3.3.3 User Classes and Characteristics

User Class	Description	Key Responsibilities
Policyholders / Prospects	Individuals seeking insurance coverage. Many may lack insurance experience or have low digital literacy.	Browse products, obtain quotes, submit applications, upload documents, pay premiums, manage policies, file and track claims. Multi-language (Amharic, Afaan Oromo, Somali, Tigrigna, English) support is required.
Agents / Sales Force / Brokers/External surveyors/Loss Assessors	Representatives who assist customers in onboarding and sales. They may operate in regions with limited connectivity.	Capture customer data, assist with applications, collect KYC documents, collect premiums.

Claims Staff	Staff who evaluate and settle claims.	Review submissions, request additional documentation, process payouts, communicate decisions to policyholders.
Managers / Executives	Back-office personnel including managers and executive leadership.	Configure insurance products and pricing, monitor performance metrics, manage agents, and generate reports.

3.3.3.4 Operating Environment

- **Cloud-native deployment:** The platform shall be deployed on secure cloud infrastructure. It shall comply with data residency and regulatory requirements for Ethiopia.
- **Mobile apps:** Customer and agent apps will run on Android and iOS devices. They must operate efficiently on low-end smartphones.
- **Web portal:** The back-office portal will run on modern web browsers (Chrome, Edge, Safari) and support high-resolution desktops.
- **Integration:** Connectivity to payment gateways, national ID (Fayda), Digital insurance system when available.

3.3.3.5 Functional Requirements

Customer Mobile App

Product Navigation and Quoting

- The system shall allow users to browse available insurance products (life, motor, health, loan redemption, etc.).
- The system shall provide a dynamic self-service quote generation tool that calculates premiums based on user inputs (age, sum insured, coverage options, vehicle details, etc.).
- Quotes shall display coverage details.
- Self-service policy amendments including coverage and beneficiary updates Integration Requirements

1.1.1. Application Submission

- Users shall be able to complete a digital application for the selected product.

- The app shall enable document upload via camera capture or file selection.
- Integration with the Fayda national ID system shall allow users to pre-fill personal details and verify their identity.
- The system shall validate data in real time (mandatory fields, formats) and provide helpful error messages.

1.1.1.1. Underwriting Status Tracking

- After submission, the app shall display real-time status updates of the application
- Push notifications, SMS or email shall inform users of status changes and requests for additional documentation.

1.1.1.2. Claim Submission

- Users shall be able to upload photos and necessary documents of damage (for motor claims) or necessary documents (for life/health claims).
- The system shall allow users to view claim history and status and user notifications including assignments and settlement progress.

1.1.2. Payment Tracking and Billing

- The app shall provide a billing dashboard displaying premium due dates and payment history.
- The system shall integrate with multiple payment gateways.
- Users shall receive digital receipts after successful payments and be able to download or share them.
- The system shall support multi-currency for managing payments.

1.1.3. Digital Policy Wallet

- Users shall have a digital policy wallet where they can access policy documents, endorsements, payment receipts and renewal notices.
- Users shall be able to share policy PDF via email or messaging apps [whatsapp].

1.1.4. Language and Accessibility

- The customer app shall support multi-language interfaces (Amharic, English, Afaan Oromo, Somali, Tigrigna) and allow users to switch languages at any time.
- The app shall provide chat-based interactions (chatbot) for onboarding and general inquiries to assist users with limited digital literacy.

- There will be agent-assisted journeys (Assisted Onboarding) for users without smartphones and voice to text translation and voice recognition system to be included.

3.3.3.6 Admin Portal

Product Configuration & Management

- The system enables to define coverages, rating factors, limits, deductibles and rules.
- The platform shall support multiple product lines (life, motor, health, property and customized products).
- The system shall manage the full policy lifecycle: issuance, amendments, renewals, cancellations.

Underwriting Workflows

- The platform shall implement digital underwriting workflows that are product-agnostic and configurable.
- For motor insurance, the workflow shall integrate with the Vehicle Intelligence system to verify vehicle details, detect damage and validate consistency between documents and images.

Claims Management

- The platform shall enable claim submissions from the customer.
- Claims officer shall be able to review submitted documents, request additional information, and approve or reject claims.
- The system shall support automated claims validation using AI models (e.g., damage assessment).

Team & User Management

- The admin portal shall allow creation and management of user roles and assign permissions.
- The platform shall provide an agent management module to onboard agents, monitor sales pipelines and view commission statements.

Payments

- The system shall interface with payment gateways for collection of premiums.

Reporting & Analytics

- The platform shall provide real-time dashboards showing metrics such as new applications, premium written, claims and agent performance.
- Users shall be able to generate custom reports with filtering, grouping and export (CSV, Excel, PDF) capabilities.
- Analytics modules shall support cohort analysis, customer segmentation, and product performance evaluation.

3.3.3.7 Non-Functional Requirements

Performance & Scalability

- The platform shall support thousands of concurrent users and be scalable to handle millions of policies and transactions.
- The system shall maintain uptime of 99.9 %.

Security & Privacy

- Role-based access control (RBAC) shall enforce least-privilege permissions.
- The system shall comply with Ethiopia's data protection laws and relevant international standards.

Usability & Accessibility

- Mobile apps shall follow modern UI/UX design principles, with clear navigation and accessible color contrasts.
- The system should be made available for the possibility of being hosted in the cloud and on-premise options.
- Chatbot interactions shall use simple language.
- Awareness creation, FAQs and support channels shall be provided within the apps to aid user adoption.

Training and capacity building

- The company should provide training for the functional and technical users of our insurance company.

3.4 Term of References

3.3.4. Expertise Requirement

The software provider should demonstrate satisfactory qualifications, experience, and competence of the organization and its key project personnel, including:

- Proposed key personnel composition, skills, and experience in insurance software development, implementation, and project management.
- Track record of the company in digitalizing insurance companies (number of companies, size of company, implementation period, etc)
- Track record of implementing the proposed system in Ethiopia and knowledge of the Ethiopian insurance market.
- Proposed software version, number of years in operation, number of insurance companies using the software.
- Firm's capabilities (financial, number of staff, branches, products).

3.3.5. Project Implementation Methodology and Project Plan

Software Providers/Suppliers are required to present their detailed project management methodology, techniques, and task sequences. The project implementation plan should include activity specifications, schedules, ordering, identification of critical activities, output specifications, milestones, deliverables, and a proposed implementation period. Suppliers are also required to cover all activities outlined in the Scope of Work section of this document in their activity plan, though they are not limited to these activities.

3.3.6. Project Period

All software supply and implementation activities, including requirement review, customization, testing, training, installation, and commissioning, should be completed within 3 months of signing the contract agreement.

PART IV: Bid Evaluation Plan (BEP)

4.1 Bid Evaluation Stages

4.1.1 Bidders' proposal shall be evaluated based on the following Six stages:

- i. Stage 1: Preliminary Evaluation
- ii. Stage 2: Technical Evaluation
- iii. Stage 3: Live Presentation and Demo Evaluation
- iv. Stage 4: Financial Evaluation
- v. Stage 5: Site Visit
- vi. Stage 6: Negotiation and Award

4.1.2 All Bids shall be first checked for conformance with the instructions to Bidders. Bids that do not conform with these Instructions to Bidders shall not be considered.

4.1.3 The aggregate score for the Technical Proposal evaluation will be 70% and the financial evaluation will be 30%.

4.2 Preliminary Examination

4.2.1 This is a preliminary screening and document verification stage where validity and completeness of basic bid documents are checked. PURCHASER shall examine the bids to determine whether the documents are complete, properly prepared, signed and generally in order.

4.2.2 A bid, which is non-responsive to the Bid Documents, shall be rejected by PURCHASER. However, PURCHASER may waive any minor informality or non-conformity or irregularity in a Bid that does not constitute a material deviation.

4.2.3 The preliminary evaluation stage does not hold any point/mark. Only proposals meeting the screening criteria will pass to the technical evaluation stage.

4.2.4 The screening process involves checking of the following documents for availability, validity and completeness:

- Bid bond amount of minimum Birr **300,000.00** or its equivalent in USD.

- A letter which must be signed by a person in charge & who is authorized to represent the bidder. The letter shall contain the following items:
 - Bidder information.
 - Name, title and signature of the person authorized by the bidder to oblige the bidder contractually
 - Name, title and telephone numbers of persons to be contacted for clarification
- Letter of acceptance of the requirements in this RFP
- Acknowledge receipt of any & all amendments in this RFP.
- Renewed current trade license (of the agent and /or main company)
- All documents asked for in the bidding documents
- Responses to all qualification criteria.
- Sealed and signed Technical Proposal document
- Sealed and signed Financial Proposal document
- Evidence which shows number of years in business, and number of insurance companies in which the proposed application software is implemented.
- Patent certificate or license agreement for the use of the application software
- The last three consecutive years audited financial statements of the company
- References from three companies (including contact name, company title and phone number) which have had similar software systems installed by your company in the past five (5) years.
- The company must have local partner in Ethiopia whose firm's legal documents (Renewed Trade license, VAT Certificate, TIN certificate) should be submitted together with primary vendor and

partnership agreement between them. The official Partnership agreement should be presented as part of pre-qualification documents.

- The bidder must be a legal entity registered in its respective country and having registered office and operations.
- The bidder should have been operational for at least the last five consecutive years.
- The bidder should be willing to be visited by a team designated by standard Insurance if required.
- The company or the bidder should not have been barred or black listed by any government, organizations or public sector as the case may be, from participating in any project and the bar subsists as on the date of the proposal, would not be eligible to submit a proposal either by itself or through its partner.
- The bidder or its partner should have, during the last three years, neither failed to perform on any agreement nor been expelled from any project or agreement nor have had any agreement terminated for breach by such bidder or it is partner.
- The company should have a valid and renewed trade license in the country of origin.
- The solution provider must have successfully implemented or provide support services of the proposed Digital insurance solutions for insurance organizations having unlimited users.
- Only bids for which bid security has been submitted are considered eligible.
- The covering letter, company information, bid security, and solution fitment documents must be submitted in the format provided in the datasheet.

PART V: Datasheets and Forms.

4.3 Technical Evaluation

4.3.1.1 The technical evaluation contains document screening and evaluation, demonstration, client checks for any referenced inquiries.

4.3.1.2 Standard Insurance has the full right to check for any technical evaluation references for selecting the best candidate.

4.3.1.3 Standard Insurance shall prefer to make site visit of the selected bidders in different evaluation level.

4.3.2 Major Evaluation Categories and Marking

The underneath table shows the major technical proposal evaluation categories and percentage of score that each category holds from the aggregate technical proposal score.

Technical proposal score=100%

Parameter	Major technical evaluation categories	Percentage of Score
I	Functional requirements (TOR)	60%
II	Non-functional requirements and software features (TOR)	20%
III	Project and Support related requirements (Pre/post implementation services, Project management and related - Training, warranty, support, proposal quality, project management organization, experience, etc) (TOR)	20%
	Total Technical Proposal Score	100%

Evaluation:

Evaluation will be carried out as follows:

- Though not yet decided, the company may define and attach a weight so as to show the importance level of each requirement entry (like Mandatory, Desirable and Optional.)

- Bidder proposals will be evaluated based on the responses provided in the "Response" and "Comment" columns. Bidders are expected to provide detailed clarifications in the "Comment" column regarding their understanding of the requirements and how they will address them.
- The following basis of rating will be used to determine point value of a specific requirement.
 - F- Available and fully supported 4%
 - C- Fully supported by Customization 3%
 - P- Partially Supported by Customization 2%
 - T- Third party 1%
 - N - Not supported by the system 0%

4.4 Response Format

- Bidders responses are received in a standard format on the “**Bidders Response Form**” that will indicate for each mandatory/optional requirement:

F (Fully Compliant): Whether the requirements can be fulfilled “out of the box” (without any additional customization)

C (Some Customization): Whether the requirement can be achieved with some customization

P (Partial supported): The existing feature partially supports the requirement.

T (Third party): The existing feature supported by third party tools.

N (Not supported): Not supported by the system. The requirement cannot be fulfilled at all

4.5 Live Presentation and Demo Evaluation

- 4.5.1 Purchasers may require bidders to conduct a system demonstration at the Purchaser's head office during or after the completion of technical evaluation to

validate the claims made in their proposals.

4.5.2 Scores given in the technical evaluation will be confirmed or deducted after looking at the demonstrations. In the worst case, it may go to the extent of rejection of bidders.

4.5.3 The demonstration must use the same software being proposed and must showcase sufficient functionality to simulate the basic proposed functions. Bidders will be provided with advance notice of the demonstration date and are responsible for providing their own demonstration equipment.

4.5.4 The Purchaser shall give the direction and needs of the demos' contents.

4.5.5 The purchaser may also conduct a site visit where the bidders' system is installed in which the work is similar in size, application, and scope to the project described herein, during any stage of the evaluation.

4.5.6 The cost required for demonstration will be covered by bidder.

4.6 Financial Evaluation

4.6.1 PURCHASER will open the Financial proposals of only those bidders with a score of at least 49 out of 70 (70 out of 100) in technical proposal evaluation.

4.6.2 Prior to detailed financial evaluation, PURCHASER shall check the proposal for the following items:

- Whether all documents have been duly initialed and signed.
- Whether the bid forms are correctly filled and signed.
- Whether the bid contains computation errors in which case PURCHASER will proceed to a rectification. Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the Bidder does not accept the correction of the errors, its bid shall be rejected. If there is a discrepancy between words and figures, the amount in words shall prevail.
- If the bidder offers in foreign currency the exchange rate at the financial opening date will be considered.

4.6.3 Financial bids shall be evaluated based on Total Cost of Ownership (TCO) for the first 5 years.

- Financial bids can be submitted in any freely convertible currency but for the purpose of evaluation, they shall be converted to Ethiopia Birr using the National Bank of Ethiopia (NBE) rates prevailing on the date of opening of financial proposals.
- The price should be stated exclusive of taxes.
- Purchaser shall not take any responsibility of paying taxes outside of Ethiopia.
- For a list of currencies that can be used for the financial proposal submission refer to currencies used by NBE
- $Sf = 100 \times FM/F$

Where

- Sf is the financial score;
- Fm is the lowest (TCO over 5 years) priced financial proposal
- F is the price (TCO over 5 years) of the proposal under consideration.

4.6.4 Breakdown of Costs

- Itemized costs of each product/ service to be provided by the vendor for the entire fulfillment of the project shall be submitted according to format provided under Form 5.3.1: Financial proposal Datasheet form.
- The bidder should ensure that as part of their technical proposal, they have identified the recommended hardware and software components for their solution (Ref: Technical Requirements: Hardware and operating system requirements).
- The bidder SHOULD NOT include costs of procuring hardware as part of the proposal since the bidder is expected to recommend hardware standards and PURCHASER procures the recommended hardware (Ref: Technical Requirements: Hardware and operating system requirements).
- Itemized costs of each product/module as well as services to be delivered should be provided as follows:

1. Software cost as follows:
 - a. License costs (itemized cost for each module)
 - b. Database environment costs
 - c. Third Party License costs
 - d. Software update costs / new releases for 5 years
2. Consultancy and service fees for the project for the complete turn-key solution from requirements assessment, installation and configuration, customization & implementation per module, unit & integration testing, Documentation & manuals preparations, Training (User Support Training & Staff Training), preparation for Go-Live, and Go-Live (including 3 months' post Go-Live onsite support).
3. Maintenance Costs for each item quoted should include 5-year period support which Includes annual support and maintenance (upgrades included).
4. Grand total and summary of total costs (Please provide estimation of man day effort and type of resources required and associated rate).

4.7 Award and Contract/Agreements Signing
